
Informace o organizaci a formálních náležitostech studia

- CU ID cards (ISIC-licensed cards)
- Student number (student ID): it is the duty of every student of Charles University to secure a Charles University student ID. This takes the form of a smart card bearing personal data, a barcode, a photograph, a signature strip and is valid for the entire duration of continuous study at Charles University. The cards are issued to students by individual issuing centres. Full information on this issue is published on a separate page of the CU ID cards.
- The student will also receive a password when the card is issued. If the password is forgotten, the instructions on the UK Central Authentication Services page should be followed.
